

The interior accessories, bedding, and towel products of Knit Factory are surprisingly different and shockingly normal at the same time. Uncommonly common, really. Designed and produced in the Netherlands, the products breathe straightforwardness and durability. Design and luxury with warmth and functionality. That's what it's all about.

Knitting is back. Or has it never gone away? At Knit Factory, they have known for years that combining fabric and knitwear results in special creations. They are not afraid to come up with new products that are perfectly logical and yet unique. Why would you only have knitwear in your wardrobe? Knit Factory prefers to think out of the box. Straight into your living room, bedroom, kitchen and bathroom.

AUTHENTIC STYLE

The Knit Factory trademark is definitely the unique combination of knitting and fabric. Warm and homely and something different. There is no better place for this than the bedroom. From soft blankets and decorative pillows to duvet covers made from crisp cotton satin: all products are recognisable and have their typical own style. As a tough giant with a heart of gold; strong yet soft. Indestructible vintage.

Bedding

BASIC BEAUTY

From the colours to the materials; everything about the home accessories is strong and durable. The comfortable cushions, lampshades and cosybags in natural colours ... they all have a rural, rugged look and are neutral without being boring! You don't have to shout to stand out, as the leather, rope and coconut details prove. Coarse has never been so refined.

Kitchen textiles

Fabrics and yarns must be of very good quality to end up in a Knit Factory towel, pot holder or kitchen apron. Only natural materials that hold their colour and shape withstand the test. We bet that you will enjoy these easy-to-use household textiles year after year. Turn your kitchen into an extension of your living room, and a symbol of your lifestyle.
